Mr Beard sends his apologies. He is attending the Hunter/Central Coast Principal’s Conference.

Teaching & Learning
Our three professional learning teams are working hard on learning about and developing strategies related to the areas of: 21st Century Learning Skills; Differentiated Learning and Feedback.

Wash up from the storms
A review of the wild weather at the start of the term is being undertaken by the DEC. The feedback the school has received has led us to reviewing our communication procedures. The school APP was rather slow and some people had trouble accessing the internet. In the event of future such events as well as our electronic communication channels, information will be provided through local ABC, 2HD and KOFM.

Tell Them From Me Survey
Students from years 4-6 completed a survey last term covering a wide variety of aspects of school life. Our results were very interesting. Mr Beard will present a summary of results to the P&C at the next meeting if the group wishes. There will be a parent survey later in the year.

School enrolment panel rep required
A representative is needed to sit down with the school enrolment committee to consider out of zone enrolments for kindergarten next year. In the past this has been the President but it does not have to be so.

Properties
The new artificial turf area has been completed. There was a mix up with the tradesmen and the seats but the company has rectified this. A solution to the sandpit has been found which is simple and affordable. This will be completed shortly.

Government Grant- Tiered seating.
As discussed at the first meeting of the year, this money is earmarked for technology for student learning.

Grandfriends day
This was a wonderful success with students, grandfriends and teachers having a lovely day. The school got lots of wonderful feedback from grandfriends on the day.
